APPRECIATION LETTER

We Saipem 5846 Team would like to show appreciation for complete SAB Rig Move team, which was moving our Rig. Your team was moving our rig in professional way, with great performance, and ZERO accidents.

The professionalism and commitment for completing their tasks left us speechless, same as commitment to HSE rules and procedures. None of our equipment was damaged, none is missing, and none is broken, the way we have left our offices during Minicamp move, we found in same condition.

We are looking forward for next rig move with you, and expect same professionalism and commitment.

Thank you for your service!

This letter is to show Saudi Aramco's appreciation for Robert T. Tisara, Rigger-1, whose hard work, attention to detail and safe performance enable rig Dalma 15 to move from HLWH-4 to DYBN-7 without incident. Especially on the 8th of May, 2017, where Robert handled multiple operations simultaneously (rigging up both substructure/mast and the mini-camp) both efficiently and safely.
